

OGC 7-1930

15 November 1957

MEMORANDUM FOR: Deputy Director (Intelligence)

SUBJECT: Briefings and Testimony to Congress on
Soviet Capabilities Concerning Guided
Missiles, Satellites, Nuclear Warheads
and Heavy Bomber Production

1. In accordance with our conversation you will find under separate cover a chronological listing of occasions when the Agency briefed members of Congress. Under each date there is reference to the Subcommittee or Congressman and a few highlights plus reference to the specific document by tabs. You will note that while we have referred to tabs which include documents containing restricted data, the documents themselves are not here but have been collected and are available in OSI.

2. From my conversation with the Director I gained a strong impression that he wished available to him an over-all statement covering these subjects against the day when he might be called upon to testify again, but in any event it seems that the compilation we have made is a useful thing to have available should any question or controversy arise on what we have stated before. I gather from your conversation that you will have your people prepare an appropriate statement on the subjects involved.

SIGNED

JOHN S. WARNER
